The laboratory grown diamond described in this Report ("Report") has been graded, tested, analyzed, examined and/or inscribed by International Gemological Institute ("IGI") as a diamond. IGI is a gemological laboratory that examines, tests, analyzes, and certifies the physical, chemical and optical properties as a mined diamond, with the exception of being grown by man (a manufactured product). IGI employs and utilizes those techniques and equipment that are available and accepted by the gemological community. IGI magnification is 10x magnification, corrected triplet loupe, binocular microscope, master color comparison stones, non-contact-optical measuring device, Diamond Sure™, and Diamond Spinel™. IGI uses standard gemological instruments and/or processes as deemed appropriate by IGI. This Report includes advanced security features. A duly accredited gemologist or jeweler can advise you with respect to the importance of the information and restrictions on color, clarity, and carat weight.

**THIS REPORT IS NEITHER A GUARANTEE, VALUATION, NOR APPRAISAL OF THE GEMSTONE DESCRIBED HEREIN. PLEASE REVIEW THE INFORMATION AND RESTRICTIONS FOR FURTHER INFORMATION. FOR ADDITIONAL INFORMATION, IMPORTANT LIMITATIONS AND DISCLAIMERS, PLEASE GO TO [WWW.IGI.ORG](http://WWW.IGI.ORG) OR CALL 1-888-BUY-IGI.**
