The laboratory grown diamond described in this Report (Report) has been graded tested, analyzed, examined and/or inscribed by International Gemological Instituce (IGLI). A laboratory grown diamond is one that has essentially the same chemical, physical and optical properties as a mined diamond, with the exception of being grown by man (a manufactured product). IGLI, employs and utilizes those techniques and equipment currently available to IGLI, including, without limitation. Dix magnification, corrections control to the control of the production of the control of the c

Weight
