The laboratory grown diamond described in this Report (Report) has been graded, tested, analyzed, examined and/or inscribed by Intermational Gemological Institut (I.G.I.). A laboratory grown diamond is one that has essentially the same chemical, physical and optical properties as a mined diamond, with the exception of being grown by man (a manufactured product). I.G.I. employs and utilizes those techniques and equipment currently available to I.G.I. including, without limitation. DX magnification, corrections are considered to the control of the control o
