LABORATORY GROWN DIAMOND REPORT

LABORATORY GROWN DIAMOND REPORT

LG496135549

PROPORTIONS

A technical diagram showing the proportions of a diamond-shaped object. The object is a hexagon with a horizontal top edge and a horizontal bottom edge, and four slanted sides. The proportions are indicated by dimension lines and percentages: the top horizontal edge is 64% of the total width; the left vertical edge is 13% of the total height; the bottom horizontal edge is 52% of the total width; and the right vertical edge is 69.2% of the total height. The text 'medium To lightly Thick' is written vertically along the left side, and 'Long' is written horizontally below the bottom edge.

The laboratory grown diamond described in this Report ("Report") has been graded, tested, analyzed, examined and/or inscribed by International Gemological Institute ("IGI"). Laboratory grown diamonds are one of the same chemical, physical and optical properties as mined diamonds and are of the same grade, color and carat weight. IGI employs and utilizes those techniques and equipment currently available to IGI, including, without limitation, 10X magnification, corrected viewing, ultraviolet light, infrared spectroscopy, Raman spectroscopy, diamond measuring device, Diamond Sure™, Diamond View™, Spectrophotometer and such other instruments and/or processes as deemed appropriate by IGI. This Report includes advanced security features. A duly accredited gemologist or jeweler can advise you with regard to the importance of and interrelationship between cut, color, clarity and carat weight.

THIS REPORT IS NEITHER A GUARANTEE, VALUATION, NOR APPRAISAL OF THE GEMSTONE DESCRIBED HEREIN. PLEASE REVIEW THE LIMITATIONS AND RESTRICTIONS SET FORTH ONLINE. FOR THE FULL DISCLOSURE OF THE LIMITATIONS AND DISCLAIMERS, PLEASE GO TO WWW.IGI.ORG OR CALL 1-888-BUY-IGI.
