LABORATORY GROWN DIAMOND REPORT

LABORATORY GROWN DIAMOND REPORT

LG508128963

PROPORTIONS

A technical diagram showing the proportions of a diamond-shaped garment. The diagram is a diamond shape with various measurements indicated by lines and percentages. The top horizontal edge is labeled '70%'. The left vertical edge is labeled '14%'. The bottom vertical edge is labeled '48.5%'. The right vertical edge is labeled '66.5%'. The word 'Long' is written below the bottom vertex. The word 'medium' is written to the left of the left vertical edge. The diagram is divided into two sections by a horizontal line, with the top section being a smaller diamond and the bottom section being a larger diamond.

The laboratory grown diamond described in this Report ("Report") has been graded, tested, analyzed, examined and/or inscribed by International Gemological Institute ("IGI") as a grown diamond. IGI's grading process includes the chemical, physical and optical properties of a mined diamond, with the exception of being grown by man (a manufactured product). IGI employs and utilizes those techniques and equipment currently available to IGI, including, without limitation, 10X magnification, corrected vision, ultraviolet light, X-ray fluorescence, Fourier transform infrared spectroscopy, measuring device, Diamond Sure™, Diamond View™, Spectrophotometer and such other instruments and/or processes as deemed appropriate by IGI. This Report includes advanced security features. A duly accredited gemologist or jeweler can advise you with regard to the importance of and interrelationship between cut, color, clarity and carat weight.

THIS REPORT IS NEITHER A GUARANTEE, VALUATION, NOR APPRAISAL OF THE GEMSTONE DESCRIBED HEREIN. IGI MAKES NO REPRESENTATIONS OR RESTRICTIONS SET FORTH ONLINE. FOR MORE INFORMATION, CONTACT US AT THE LIMITATIONS AND DISCLAIMERS, PLEASE GO TO WWW.IGI.ORG OR CALL 1-888-BUY-IGI.
