## LABORATORY GROWN DIAMOND REPORT

|                         |                                      |
|-------------------------|--------------------------------------|
| October 8, 2025         |                                      |
| IGI Report Number       | LG733517792                          |
| Description             | LABORATORY GROWN DIAMOND             |
| Shape and Cutting Style | SQUARE CUSHION MODIFIED<br>BRILLIANT |
| Measurements            | 6.74 X 6.51 X 4.51 MM                |

## GRADING RESULTS

|               |                     |
|---------------|---------------------|
| Carat Weight  | 1.52 CARAT          |
| Color Grade   | F                   |
| Clarity Grade | INTERNALLY FLAWLESS |

### ADDITIONAL GRADING INFORMATION

|                |                                                                                               |
|----------------|-----------------------------------------------------------------------------------------------|
| Polish         | EXCELLENT                                                                                     |
| Symmetry       | EXCELLENT                                                                                     |
| Fluorescence   | NONE                                                                                          |
| Inscription(s) |  LG733517792 |

Comments: As Grown - No indication of post-growth treatment.  
This Laboratory Grown Diamond was created by High Pressure High Temperature (HPHT) growth process.  
Type II

LG733517792
