## LABORATORY GROWN DIAMOND REPORT

|                         |                          |
|-------------------------|--------------------------|
| August 21, 2026         |                          |
| IGI Report Number       | LG809650879              |
| Description             | LABORATORY GROWN DIAMOND |
| Shape and Cutting Style | ROUND BRILLIANT          |
| Measurements            | 8.14 - 8.19 X 4.96 MM    |

## GRADING RESULTS

|               |                     |
|---------------|---------------------|
| Carat Weight  | 2.01 CARATS         |
| Color Grade   | D                   |
| Clarity Grade | INTERNALLY FLAWLESS |
| Cut Grade     | IDEAL               |

### ADDITIONAL GRADING INFORMATION

|                |                                                                                                 |
|----------------|-------------------------------------------------------------------------------------------------|
| Polish         | EXCELLENT                                                                                       |
| Symmetry       | EXCELLENT                                                                                       |
| Fluorescence   | NONE                                                                                            |
| Inscription(s) |  LG809650879 |

Comments: As Grown - No indication of post-growth treatment.

This Laboratory Grown Diamond was created by High Pressure High Temperature (HPHT) growth process.  
Type II

LG809650879
