## LABORATORY GROWN DIAMOND REPORT

|                         |                          |
|-------------------------|--------------------------|
| July 2, 2026            |                          |
| IGI Report Number       | LG815610251              |
| Description             | LABORATORY GROWN DIAMOND |
| Shape and Cutting Style | OVAL BRILLIANT           |
| Measurements            | 8.67 X 6.00 X 3.76 MM    |

## GRADING RESULTS

|               |                     |
|---------------|---------------------|
| Carat Weight  | 1.23 CARAT          |
| Color Grade   | E                   |
| Clarity Grade | INTERNALLY FLAWLESS |

### ADDITIONAL GRADING INFORMATION

|                |                                                                                               |
|----------------|-----------------------------------------------------------------------------------------------|
| Polish         | EXCELLENT                                                                                     |
| Symmetry       | EXCELLENT                                                                                     |
| Fluorescence   | NONE                                                                                          |
| Inscription(s) |  LG815610251 |

Comments: As Grown - No indication of post-growth treatment.  
This Laboratory Grown Diamond was created by High Pressure High Temperature (HPHT) growth process.  
Type II
