## LABORATORY GROWN DIAMOND REPORT

July 22, 2026

IGI Report Number LG818688859

Description **LABORATORY GROWN DIAMOND**Shape and Cutting Style **MARQUISE BRILLIANT**

Measurements 10.36 X 5.31 X 3.31 MM

## GRADING RESULTS

Carat Weight 1.02 CARAT

Color Grade D

Clarity Grade **INTERNALLY FLAWLESS**

### ADDITIONAL GRADING INFORMATION

Polish **EXCELLENT**Symmetry **EXCELLENT**Fluorescence **NONE**Inscription(s)  LG818688859

Comments: As Grown - No indication of post-growth treatment.

This Laboratory Grown Diamond was created by High Pressure High Temperature (HPHT) growth process.  
Type II

|                                                                                                                                |                                                                                                                                                                                                                          |                                                                                                                                                                         |                                                                                                                                                                                                    |
