## LABORATORY GROWN DIAMOND REPORT

|                         |                          |
|-------------------------|--------------------------|
| July 28, 2026           |                          |
| IGI Report Number       | LG821699941              |
| Description             | LABORATORY GROWN DIAMOND |
| Shape and Cutting Style | ROUND BRILLIANT          |
| Measurements            | 7.31 - 7.35 X 4.68 MM    |

## GRADING RESULTS

|               |            |
|---------------|------------|
| Carat Weight  | 1.58 CARAT |
| Color Grade   | F          |
| Clarity Grade | VVS 2      |
| Cut Grade     | VERY GOOD  |

### ADDITIONAL GRADING INFORMATION

|                |                                                                                                 |
|----------------|-------------------------------------------------------------------------------------------------|
| Polish         | EXCELLENT                                                                                       |
| Symmetry       | EXCELLENT                                                                                       |
| Fluorescence   | NONE                                                                                            |
| Inscription(s) |  LG821699941 |

Comments: This Laboratory Grown Diamond was created by Chemical Vapor Deposition (CVD) growth process.  
Type IIa
