|-------------------------|--------------------------|
| September 7, 2026       |                          |
| IGI Report Number       | LG825615321              |
| Description             | LABORATORY GROWN DIAMOND |
| Shape and Cutting Style | ROUND BRILLIANT          |
| Measurements            | 9.30 - 9.35 X 5.63 MM    |
| GRADING RESULTS         |                          |
| Carat Weight            | 3.02 CARATS              |
| Color Grade             | F                        |
| Clarity Grade           | VS 1                     |
| Cut Grade               | EXCELLENT                |

### ADDITIONAL GRADING INFORMATION

|                |                                                                                                 |
|----------------|-------------------------------------------------------------------------------------------------|
| Polish         | EXCELLENT                                                                                       |
| Symmetry       | EXCELLENT                                                                                       |
| Fluorescence   | NONE                                                                                            |
| Inscription(s) |  LG825615321 |

Comments: This Laboratory Grown Diamond was created by Chemical Vapor Deposition (CVD) growth process.  
Type IIa
