## LABORATORY GROWN DIAMOND REPORT

|                         |                                                |
|-------------------------|------------------------------------------------|
| September 3, 2026       |                                                |
| IGI Report Number       | LG833685905                                    |
| Description             | LABORATORY GROWN DIAMOND                       |
| Shape and Cutting Style | CUT CORNERED RECTANGULAR<br>MODIFIED BRILLIANT |
| Measurements            | 10.86 X 7.42 X 5.09 MM                         |

## GRADING RESULTS

|               |             |
|---------------|-------------|
| Carat Weight  | 3.56 CARATS |
| Color Grade   | D           |
| Clarity Grade | VS 1        |

### ADDITIONAL GRADING INFORMATION

|                |                                                                                               |
|----------------|-----------------------------------------------------------------------------------------------|
| Polish         | EXCELLENT                                                                                     |
| Symmetry       | EXCELLENT                                                                                     |
| Fluorescence   | NONE                                                                                          |
| Inscription(s) |  LG833685905 |

Comments: This Laboratory Grown Diamond was created by Chemical Vapor Deposition (CVD) growth process.  
Type IIa

Comments:  
 The Laboratory Grown Diamond was  
 created by Chemical Vapor Deposition  
 using a high pressure high temperature  
 type IIa process.
