## LABORATORY GROWN DIAMOND REPORT

|                         |                          |
|-------------------------|--------------------------|
| September 10, 2026      |                          |
| IGI Report Number       | LG836621378              |
| Description             | LABORATORY GROWN DIAMOND |
| Shape and Cutting Style | OVAL BRILLIANT           |
| Measurements            | 8.63 X 6.13 X 3.77 MM    |

## GRADING RESULTS

|               |            |
|---------------|------------|
| Carat Weight  | 1.24 CARAT |
| Color Grade   | E          |
| Clarity Grade | FLAWLESS   |

### ADDITIONAL GRADING INFORMATION

|                |                                                                                               |
|----------------|-----------------------------------------------------------------------------------------------|
| Polish         | EXCELLENT                                                                                     |
| Symmetry       | EXCELLENT                                                                                     |
| Fluorescence   | NONE                                                                                          |
| Inscription(s) |  LG836621378 |

Comments: As Grown - No indication of post-growth treatment.

This Laboratory Grown Diamond was created by High Pressure High Temperature (HPHT) growth process.  
Type II

LG836621378
