## LABORATORY GROWN DIAMOND REPORT

|                         |                          |
|-------------------------|--------------------------|
| October 15, 2026        |                          |
| IGI Report Number       | LG848639499              |
| Description             | LABORATORY GROWN DIAMOND |
| Shape and Cutting Style | MARQUISE BRILLIANT       |
| Measurements            | 12.99 X 6.58 X 4.13 MM   |

## GRADING RESULTS

|               |             |
|---------------|-------------|
| Carat Weight  | 2.01 CARATS |
| Color Grade   | E           |
| Clarity Grade | VVS 2       |

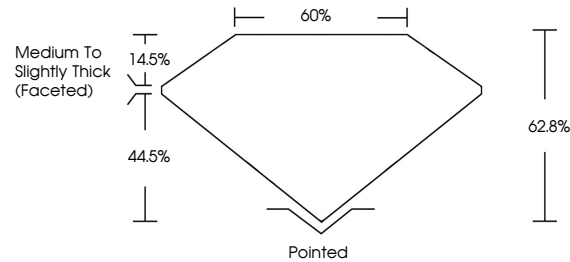

### ADDITIONAL GRADING INFORMATION

|                |                                                                                               |
|----------------|-----------------------------------------------------------------------------------------------|
| Polish         | EXCELLENT                                                                                     |
| Symmetry       | EXCELLENT                                                                                     |
| Fluorescence   | NONE                                                                                          |
| Inscription(s) |  LG848639499 |

Comments: This Laboratory Grown Diamond was created by Chemical Vapor Deposition (CVD) growth process.  
Type IIa
